

# World Wide Web

## Web applications

Created by Tomas Hanak

# The Idea

- Problem: no quality app for custom interactive maps
- Our solution: **LCIM** (Life Changing Interactive Map)
- Changes how people think about maps

# Demo

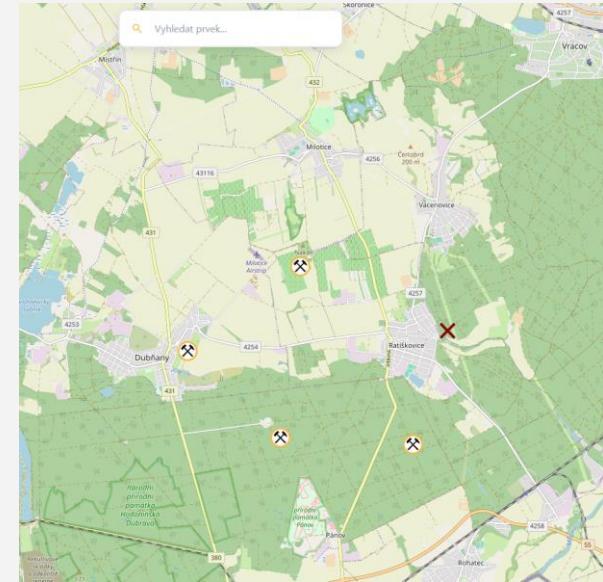

- Live demo: [mapa.jmld.cz](https://mapa.jmld.cz)
- Edit mode: [mapa.jmld.cz/login](https://mapa.jmld.cz/login) (Credentials: AIT2025/AIT2025)
- Confident UX: no tutorial needed
- Few clicks to see the difference
- Experience interactive mapping first-hand

<https://mapa.jmld.cz/>

# What Is LCIM

- Not just another interactive map
- Fast, intuitive, modern
- Combines open data, smart UX, and speed
- Pushes boundaries of web mapping

<https://mapa.jmld.cz/>

# Key Features

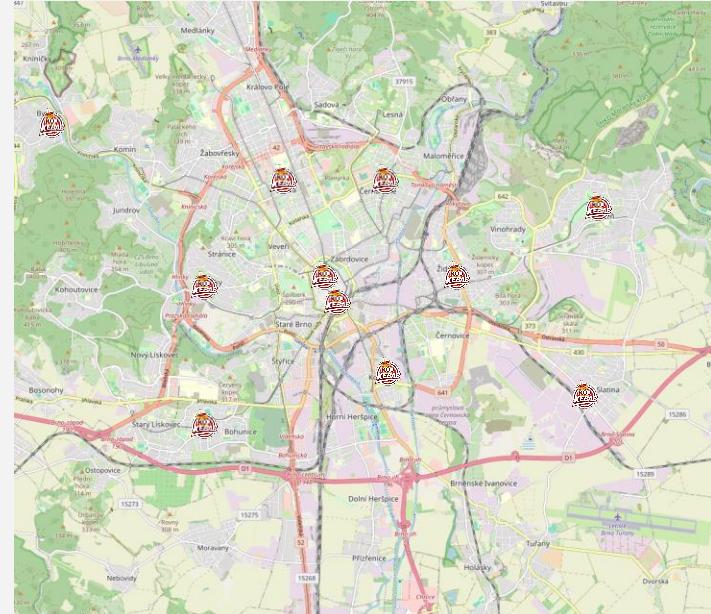

- Multiple base maps and layers
- Custom icons and colours
- Smart search and link sharing
- Modern UX/UI design
- Highly customizable

The image shows two screenshots of the JMLD map application. The left screenshot displays a historical black-and-white photograph of the 'Důl Dukla - Šardice' coal mine under construction. The right screenshot shows the 'Upravit prvek' (Edit feature) dialog box. The dialog box contains fields for 'Název prveku' (Name of feature), 'Typ prveku' (Type of feature), 'Zeměpisné šířka' (Latitude), 'Zeměpisná délka' (Longitude), 'Popis prveku' (Description of feature), 'Obrázky' (Images), 'Úžitečné odkazy' (Useful links), and 'Text odkazu' (Text link). It also includes sections for 'Komentář' (Comment) and 'URL odkaz' (URL link).

# Use Cases & Plans

- Tourism projects, community mapping, city planning
- Restaurants: easily show branch locations
- Local Plan: data stored on your own server
- Online Plan: cloud-based, fast, reliable
- Integration with company accounts
